Feel the Passion

Steel Pulse

I can feel the passion
Of your love love love
Your warm and tender body
I just can't get enoughWhat a joy to know hearts
Can groove along together
And if they both should ever stop
We know we got each other
They say no pain no gain
With us there's been all pleasure
There's no doubt in my mind
That we are truly loversYou comfort me
Whenever I feel blue
You are my remedy
Your kind of love comes in
Just right on timeI can feel the passion
Of your love love love
Your warm and tender body
I just can't get enoughAnd how good and how pleasant
It's for us to have each other
And who God has put together
Let no man break asunder
As we stand on solid ground
Foundation never crumble
Cause I'm so certain of your love
So pure and gentleI can depend on you
Whenever there are problems
You will pull me through
Your kind of love comes in
Right on timeI can feel the passion
Of your love love love
Your warm and tender body
I just can't get enoughI can feel the passion
Of your love love love
Tell me 'bout your love
