

# The Fly

## Robyn Hitchcock and The Egyptians

Come on, come on and do the fly with me  
Hey, come on everybody and do the fly with me  
Well, if you don't know how to do it  
Just watch and see  
You've gotta shake your hands all around and around the sky  
And then you buzz around the floor  
You can do it if you really try  
All the girls and guys are getting buzzed  
They're gonna fly, fly high baby  
You pretty little girl, come and fly away with me  
Oh, pretty little girl, fly away with me  
We're gonna fly to the sky  
But you'll never fly away from me, oh yeah, hey

Don't you know  
You've gotta shake your hands all around and around the sky  
And then you buzz around the floor  
You can do it if you really try  
All the girls and guys are getting buzzed  
They're gonna fly, fly high, baby  
Come on, come on and do the fly with me  
Come on everybody and do the fly with me  
Well, you can fly to the sky  
But you'll never fly away from me, now fly  
Yeah, fly, fly, baby  
Yeah, gonna fly, fly, fly, fly, fly, fly
