Letting Go

Light Up The Sky

All I see as I look outside my window
The world's moving faster without me
Slowly sinking into my bed
Maybe it's just all in my head
Can I erase the past and just move on from hereYou gotta let go for a moment...you gotta break free
Don't forget about the world's in your hands...you gotta let goCause I know now that everything will be alright
Cause I know now that everything will be alrightI stop and think
Is it really worth my time to
Change everything about meAll the flaws that make up who I am
No one will ever understand
All the pain I hide inside
I just wanna feel something realYou gotta let go for a moment....you gotta break free
Don't forget about the world's in your hands...you gotta let goCause I know now that everything will be alright
Cause I know now that everything will be alrightAnd I just want you to know that it's hard to let go
But it's what I need
I just don't wanna feel this way anymoreYou gotta let go for a moment...you gotta break free
Don't forget about the world's in your hands...you gotta let goCause I know now that everything will be alright
Cause I know now that everything will be alright
Cause I know now that everything will be alright
Cause I know now that everything will be alrightAnd as the world's always changing
So am I
