Away

Fatin

You had your raybans on
sneakers and worn out clothes
I Had to walk up right awayWe spoke your cool came off
usually dont take it home
Feels like i know you alreadyGave it a shot
Had time to care
you know just how to talk and
you get meFourty four caliber to spare
cupid sure really knows
how to hit meI Said let's get together
You can go ahead
So make my days let's run
Away away away away away away . away!
Away away away away away away, away!
Away ...Away!!Go to le boulevard
late to see the sun fall
minutes after turned to hours
We kept on walking on
your shirt kept the cold off
Engaged in the night
to get oursThough im not a model chic
I know the runway
so make my day let's runAway away away away away away . away!
Away away away away away away, away!
Away away away away away away Away!!
Wonder where you came form
I've never met someone
who understands me right away
not looking at nobody
i was blinded
Was onlyone way minded
so what do you say
We get ...
Away away away away away away, away!
Away away away away away away, away!
Away ...Away!!
