

Flicker, Fade (Official Music Video)

Taking Back Sunday

If you should change your name,
I'll love you just the same
and if you should run away,
I would save your place
so you can go, go, go
if you want to I wouldn't try
and stop you
but I couldn't say I blame you Flicker flicker fade, destroy what you create
and wonder why it always ends the same,
you wonder why it always ends the same When I said "I hate that song"
about fire and sex you love,
I couldn't tell you why,
why I did it, why I lied
and I know it's wrong, wrong, wrong
it's evil but true it's what
I want to make you
(so I can say I blame you) so I can say I blame you Flicker flicker fade, destroy what you create
and wonder why it always ends the same,
Flicker flicker fade, destroy what you create
and wonder why it always ends the same,
you wonder why it always ends,
you wonder why it always ends the same
