Thrive

Mitch King

We love
We can be free
Gotta follow your heart
And stand tall

And fear
Can come to hold you back
And ground you on your knees
And you were born to thrive

And we're still young
And I wont be the same
And the truth is found from what you come to feel
And colors in the sky
And the sun shinin' down on my skin
Is all I need

Clean water
To ocean and the lands
To no concept of time
Keep me alive, oh yeah

And we're still young
And I wont be the same
And the truth is found from what you come to feel
And colors in the sky
And the sun shinin' down on my skin
Is all I need

And we love
We can be free
Follow your souls plans
And follow your path

And we love
We can be free
Follow your heart and
Follow your soul
