

# Throw Down the Sword

## Wishbone Ash

Throw down the sword the fight is done and over  
Neither lost, neither won  
To cast away the fury of the battle  
And turn my weary eyes for home There were times when  
I stood at death's own door  
Only hoping for an answer Throw down the sword and leave the glory  
A story time can never change  
To walk the road, the load I have to carry  
A journey's end, a wounded soul There were times when  
I stood at death's own door  
Only searching for an answer
