

# Favours

## The Delgados

V1

Started to fight  
But I took off in fright  
Could not believe  
That she didn't chase me

V2

Climbed on her back  
With an ambush attack  
Down came the force  
And down came the briefcase

V3

Quiet before  
Then you came to the fore  
Not unsurprised  
Still happy to see you

V4

You know there's no chance  
Not a sniff of romance  
And I'm thinking this is the end of the line

Chorus

And you're feeling fine  
Are you looking for favours  
Returned for your crime  
Help me to stand  
Help me to say  
That I don't want to be here  
I don't want to stay  
I just want away

V5

A hit for a feel  
With unconquered appeal  
You locked the door  
And I started to tremble

V6

Touch without touch

Are we feeling too much

I can't decide

If I'm feeing able

V7

Eyes that don't meet

Are we too scared to speak

I can't provide

What you are requesting

V8

You know there's no chance

Not a sniff of romance

And I'm thinking this is the end of the line

Chorus

And you're feeling fine

While you're looking for favours

Returned for your crime

Help me to stand

Help me to say

That I don't want to be here

I don't want to stay

I just want away

(M8)

Chorus

And I, I'll try to feel fine

While I'm taking orders from bottles of wine

Help me to stand

Help me to say

That I don't want to be here

I just want away

Touch without touch

Feel without feel

Are we both really hoping

This just isn't real

Help me to stand

Help me to say

That I don't want to be here

I don't want to stay

I can't give today
