My Side Today

Maren Ord

I've always been so understanding
If memory serves me right
No I've never started a fight

You're cold you're stiff you're wrong
Just look at you fumble along

If you point your fist in my direction
Color me black as night
No I'll never stumble into your light

You're cold and you started this fight
You're wrong but you're very right
Is it so important to you
Fine you're right

And I should know
I'm a girl and you're a boy
And you should know me better

You've always been understanding
You're not on my side today
