Our Dignity

Lower Class Brats

the time is coming near
we thought you all should hear
that were not in the shadows anymore
were standing side by side
were ready to collide
i think you know what weve come forWere taking back our dignity
Punks and skins back to the streets
were taking back our dignity
herberts and hooligans never retreatwe wont be taken down
always two feet on the ground
unless were drunk and passed out on the floor
you best keep to yourself
or well put you on the shelf
dont come around- I think you know the score
