

# Mesmerization Eclipse

## Captain Beyond

See the bright chipper in the harbor, hey  
Making iridescent waves  
Need to try a little harder  
On the voyage to better days Sun and moon in the valley  
At the same time  
Bringing out the golden braid  
Yes we're gonna reach  
The peak in no time  
I think earth just a runaway  
Mesmerization eclipse's move me Desperation is setting in, baby  
Erratic movement to and fro  
Need your love to make it right, baby  
Cause I have no place to go Sun and moon in the valley  
At the same time  
Hey, baby, you know it's true  
Cause we're gonna reach  
The peak in no time, yeah!  
I think earth is a crazy fool, hey! Oh earth, sun,  
Daylight blew my time  
Things got lost  
Oh so lost  
Trying to hide inside Mesmerization baby (x8)  
Oh, you got!  
Pulled you in like the ancient Sirens  
Everybody said disguise me  
Here's mesmerization eclipse till mornin'  
Never quite deserved to be  
It's a mesmerization eclipse...
