Spark a Light

Roster McCabe

Fear by color
You destroy
All the things you fear but you forgot
ON earthed we found a place here together,
Though stormy outside our love we give IT gives us shelter,
If hate shakes the foundation, what could be the reason?
Community culture and corporate capital which one leads to treason?Dont let fear of fear overtake you
You will only hear what youd like
I think its time to take a stance now
Theres never been a better time(Get up get out get moving)
SO WE SAY
(Theres only one solution)So we sing (SAY?) profits of the future prophets getting clearer
So dont take bread from your brother
So we try to spark a light of guidance
And hope that someone finds it
So this calling wont be lostWe move as one, faces towards the sun,
Dont let the devil distract, our path to Zion
We pulled ourselves up, dirt under nails
WE tamed nature and forged a thousand trails
IF WE PRAY TO MATERIAL THINGS THEN WHAT WILL BRING US PEACE?
WILL THE FATE OF A HEADSTRONG NATION GET YOU TO BELIEVE?Dont let fear of fear overtake you
You will only hear what youd like
I think its time to take a chance now
Theres never been a better time(Get up get out get moving)
SO WE SAY
(Theres only one solution)So we sing profits of the future prophets getting clearer
So dont take bread from your brother
So we try to spark a light of guidance
Hope that someone finds it
So this calling wont be lost
