## Rini

Just like your mother  
Your beautiful soul  
Always cared for another's Even on your own low  
This time I'll be the one looking after you so  
I'll kiss your head and say it's under control  
All you gotta do is let me explore  
Let me dig on your dirt girl,  
cause I know there is something deep down I'm right  
Cause I found a treasure, inside my lover She knows I'll keep it forever  
She knows I'll keep it forever  
Just like the desert flowers bloom  
Your love for me never fades too soon  
I've got you in my arms, my arms, my arms  
Ooo-hoo ooo-hoo  
I'll come to you tonight so you won't be alone  
Wake up I'm next to you love, next to you  
No I won't leave you, cause you're precious to me, precious to me  
Cause I found a treasure, inside my lover  
She knows I'll keep it forever  
She knows I'll keep it forever  
Cause I found a treasure, inside my lover  
She knows I'll keep it forever  
She knows I'll keep it forever
