

Fade to Love

Polina

Have you ever walked on the edge of the life
As we could, we could have it all
Even times got no power to stop us here tonight
As we could, we could have it all.

It's just one thing left for us to do
Before this night with you
Something that I want from you

I feel you...
How feeling merely freezing
One minute before we fade to love,
Before we fade to love

I feel you...
How feeling merely freezing
One minute before we fade to love,
Before we fade to love

Have you ever feel like your skin's on fire
As we could, we could have it all
You touch the surface which you know is not enough
When we could, we could have it all.

It's just one thing left for us to do
Before this night with you
Something that I want from you

I feel you...
How feeling merely freezing
One minute before we fade to love,
Before we fade to love

I feel you...
How feeling merely freezing
One minute before we fade to love,
Before we fade to love

It's just one thing left to say before we fade to love
It's just one thing left to say before we fade to love
