Don't Mess With My Love

M2m

I thought you were a friend of mine but I was wrong
You tried to fit into the arms where I belong
You moved right in behind my back
Everyone knows friends don't do that
I thought you were somebody I could trust
You always said you were happy for us
How could you go and break my heart?
When you knew all along he was mine from the start
He is everything to me and you know we're meant to be
He's my baby, don't mess with my love
Take everything I own, oh just leave that boy alone
He's my baby, don't mess with my, mess with my love
Don't mess with my love
You came right over and looked in my eyes
You said the stories were rumors and lies
I wish I could believe in you
But I'm sorry to say he told me the truth
He is everything to me and you know we're meant to be
He's my baby, don't mess with my love
Take everything I own, oh just leave that boy alone
He's my baby, don't mess with my, mess with my love
Don't mess with my love
Friends don't do what you do
There's no excuse I'm so confused
I thought you cared about me
But now I see all you care about is you
He is everything to me and you know we're meant to be
He's my baby, don't mess with my love
Take everything I own, oh just leave that boy alone
He's my baby, don't mess with my love
He is everything to me and you know we're meant to be
He's my baby, don't mess with my love
Take everything I own, oh just leave that boy alone
He's my baby, don't mess with my, mess with my love
He is everything to me and you know we're meant to be
He's my baby, don't mess with my love
Take everything I own, oh just leave that boy alone
He's my baby, don't mess with my, mess with my love
Don't mess with my love, don't mess with my love

Don't mess with my love
He is everything to me, yeah
