## Witches

## Low

You played the part of the one Who was taken down by gods All I could think about was how a guy Like me could fight them offAnd when you finally Submitted to embarrassing capture Out of the corner of my eye I see my children in raptureOne night I got up and told my father There were witches in my room He gave me a baseball bat and said "Here's what you do"When you have finally Submitted to embarrassing capture Take out that baseball bat And show those witches some pastureAll you guys out there Trying to act like Al Green All you guys out there Trying to act like Al Green, you're all weak'Cause when you've finally Submitted to embarrassing capture All you guys out there Gonna wish you were Al Green
