

All We've Got Is Now

Uncle Lucius

(Right now) Now, right now (x2)

(Right now)

Right now (x6)

Right now, now, now, now, now

/:There?s no past and there?s future

All we?ve got is now:/

(Right now)

There?s no past, there?s no future

All we?ve got is now

(Right now)

There?s no past and there?s no future

All we?ve got is now

Nobody knows what tomorrow brings

Everything done is done

Brother, wake up, there?s a song to sing

Sister, the time has come

All we?ve got is now, right now is all we?ve ever had

/:There?s no past and there?s no future

All we?ve got is now:/

You?ve been working hard, tryin? to make the bills

All your best laid plans never let you get ahead

And you forget that life is not an accident

Yeah, you get caught up in the hustle you?ve been fed

Well, every second here, it is a miracle

You gotta step right up and harness all you power

Just forget about where you?ve been before

(There?s no past and there?s no future)

Cause the past is dead and the future happens now

(All we?ve got is now)

Nobody knows what tomorrow brings

Everything done is done

Brother wake up, there?s a song to sing

Sister the time has come

All we?ve got is now, right now is all we?ve ever had
