Instructions On Building a Model Airplane

Action Action

Fill the blank spots in
With childish gibberish
What seems to be the difference
As we only will digressAnd I need you more today
Let's talk about the government
Then you walk away
Don't walk awayYou're so invincible
So damn consumable
Oh, just deliver it
You're so unbeatableYou're so delectable
Even though impossible
Very much untouchable
You're so unbeatableCan you figure it out
Develop your moment
Rejection is bliss
Ignorance is almostAnd I need you more today
Let's talk about the development
Then you walk away
Don't walk awayYou're so invincible
So damn consumable
Oh, just deliver it
You're so unbeatableYou're so delectable
Even though impossible
Very much untouchable
You're so unbeatableAnyway you figure it
We will all die soon enough
The trick is to be the firstYou're so invincible
So damn consumable
Oh, just deliver it
You're so unbeatableYou're so delectable
Even though impossible
Very much untouchable
You're so unbeatableAnd you go and you go
You're so unbeatable
And you go and you go
You're so unbeatable
