

Peace Pipe

Black Stone Cherry

I see you still got your warpaint on
I can't believe that you can't let go
I know you think that we're too far gone
I know, you know Everything we've been told a lie
And we should just be getting high
What happened to you and I
I, I wanna take you Fall down on a peace pipe
I just wanna make love I don't wanna fight
Oooh, see the world through different eyes Fall down on a peace pipe
I just wanna make love I don't wanna fight
Oooh, I know the smoke would change your mind Well, well, well It's been a while since I felt this way
There's too much poison in the system now
I feel there's something I got to say
I know, you know Everything we've been told a lie
And we should just be getting high
What happened to you and I
I, I wanna take you Fall down on a peace pipe
I just wanna make love I don't wanna fight
Oooh, see the world through different eyes Fall down on a peace pipe
I just wanna make love I don't wanna fight
Oooh, I know the smoke would change your mind-Guitar (2x) solo (with drums)-Fall down on a peace pipe
I just wanna make love I don't wanna fight
Oooh, see the world through different eyes Fall down on a peace pipe
I just wanna make love I don't wanna fight
Oooh, I know the smoke would change your mind Fall down, taking hits off a peace pipe
I just wanna make love,
I know the smoke will change your mind, hmm (Not sure if it's 'Fall down' or 'Float down' - Synophrys)
