

Godspeed Hellbound

Black Label Society

Decisions that kill
And bullets that fly
Lords of inferno
That litter the sky
Shattered cries
of the prayers never heard
War of the gods that
Drown out of wordsAs the world burns
Beneath the ground
As the world burns
Godspeed
HellboundThe gears that grind
Shall never be still
The grudge that burns
Obsessed 'til it kills
Schizophrenic poems of death
machine ever after that never restAs the world burns
Beneath the ground
As the world burns
Godspeed
HellboundAs the world burns
Beneath the ground
As the world burns
Godspeed
HellboundCrashing, burning all shall fade
Dead and dying here to stay
here to stay
here to...Against his maker
No regard for his fall
The winds of the west
Bow down to his callFamine and murder
Beside from within
The vultures gather
Devouring sinAs the world burns
Beneath the ground
As the world burns
Godspeed
HellboundAs the world burns
Beneath the ground

As the world burns
Godspeed
Hellbound
