

# I Tell It Like It Used to Be (Re-Recorded)

**T. Graham Brown**

They say that I'm the kind of man who always speaks his mind  
To me there's nothing stronger than the truth  
You can ask me almost anything and I'll tell you like it is  
But darling when they ask me about you I tell it like it used to be when you were still in love with me  
Before you got to used to me and wanted someone new  
I tell it like it ought to be 'cause how it is, is killing me  
When they ask about you and me, I tell it like it used to be I wish that I was stronger, I could tell them that  
you've gone  
But that's one thing that I may never do  
If they want to hear about our love and how it all went wrong  
Then darling they will just have to talk to you I tell it like it used to be when you were still in love with me  
Before you got to used to me and wanted someone new  
I tell it like it ought to be 'cause how it is, is killing me  
When they ask about you and me, I tell it like it used to be
