One More Night

Aaron Carter

All I need is one more night to make it right now.I dont even want to leave t'll it slide out,the way you like it,dont wonna stop it,come on lets rock it.And if you searching for someone to give you the world,come and dance with me t'll u cant dance anymore oh.. dont want to sleep I just want to give you all that I can..... how?.....

Give me one more night cause I cant get enough
(one more night,one more night)
Give me one more night so I can try to feel.....the love..... (one night,one night,would you give me one more night)
(one night,one night would you give me one more night)
(one night,one night will you give me one more night,one night,one night all we need is one more night)

Push yourbody pass the edge theirs no limit every minute has a crazy kind of feeling now everbody's gonna find somebody their no need to worry(come on)you been working so hard everday of the week you been thirstin just lose your self in beat so tell the DJ not to stop playing my jam....hey..... ya

Give me one more night cause I cant get enough
(one more night,one more night)
Give me one more night so I can try to feel.....the love..... (one night,one night,would you give me one more night)
(one night,one night would you give me one more night)
(one night,one night will you give me one more night,one night,one night all we need is one more night)
