Fade to Grey

66notes

Chorus:
We don't need to talk about it
Been over it and under it
And still I'm on top babe

Verse:
Could it be shes fading
Into nothing like she never was here
yes I know we're changing
But that ain't something that you need to fear
Oh wait a minute does that shoe fit
You know you foul how could you do it
Playing me like I'm my music
That's not fair

Bridge:
Fade to Grey
And as the color leaves, leaves
We fade to Grey baby
And as the color leaves me
I cannot breath baby
