

# I Don't Wanna Know

[Sheryl Crow](#)

I heard the song it was all around  
Everyone's quitting, everyone's breaking down  
I called your house on the telephone  
Nobody answered but I know you're home All in all it's nature's poetry  
I can't understand the way it flows  
I don't wanna know, no, I don't wanna know  
'Cause everything I know makes me feel so low  
No, I don't wanna know I pushed a button just to find my way  
I got directions but I'm still lost today  
I see her smiling but her eyes were dead  
Nobody's crying that's what the paper said All in all, it's nature's poetry  
I can't understand the way it goes  
So I don't wanna know, no, I don't wanna know  
'Cause everything I know makes me feel so low  
No, I don't wanna know All in all, it's nature's poetry  
Can't understand the way it flows  
So I don't wanna know, no, I don't wanna know  
'Cause everything I know makes me feel so low  
No, I don't wanna know No, I don't wanna know  
No, I don't wanna know, no, I don't wanna know  
'Cause everything I know makes me feel so low  
I don't wanna know
