South Side

Thomas Rhett

(Please commence shaking your south side)
(Diamonds on that beat)
(Feels good)There ain't no place
It ain't goin' on
It's goin' around
Like a vagabond
It gets in your bones
Like you caught the flue
And now there ain't no cure
You just gotta move
When you feel the grooveNow people on the left
Shake your south side
People on the right
Shake your south side
Every single girl
Shake your south side
All around the world
Shake your south sideLike Memphis, Tennessee
Got in bed, with CDB
And had a baby
Oh when the baby cried
It made this sound
Ain't no lie, it was funkifiedNow people on the left
Shake your south side
People On the right
Shake your south side
Every single girl
Shake your south side
All around the world
Shake your south side(Oh yeah, it feels good don't it?)Let me break it down
Shake it like salt
Shake it like pepper
Shake it like champagne number one record
Shake it 'til you just can't shake it no more
Shake that thing all your way to the floPeople on the left
(Shake your south side)
People On the right
(Shake your south side)
People on the left

Shake your south side
People On the right
Shake your south side
Every single girl
Shake your south side
All around the world
Shake your south side
People on the left
Shake your south side
People On the right
Shake your south side (just shake your south side baby)
People on the left (do it just like that)
Shake your south side (then do it again)
People on the right (do it just like that)
Shake your south side
(Was that a good one?
It was a good one)
