

# Ten Minutes

## The Get Up Kids

Ten minutes to downtown  
Is ten minutes too far  
When my friends all say I'm crazy  
Maybe I'm being selfish  
Maybe I'm just scared Don't be gone when I get home  
I need you there If I had to explain it  
I wouldn't know where to start  
It's like you're falling in love  
While I just fall apart Ten minutes to downtown  
Is ten minutes too far  
When my heart is saying you're crazy  
Maybe things are getting better  
Maybe things aren't so bad Don't be gone when I get home  
You're all I have If I had to explain it  
I wouldn't know where to start  
It's like you're falling in love  
While I just fall apart Pockets empty, how can you tell me  
That everything will work out?  
A pointless fight when you're always right  
And everything will work out, it works out Sometimes, I miss you more  
Whenever I'm at home  
I've been home all summer  
Now I'm leaving you alone Pockets empty, how can you tell me  
That everything will work out?  
A pointless fight when you're always right  
And everything will work out  
Everything will work out  
Everything will work out
