

Make It Right

New Found Glory

Focus on me
There is more to see
But use discretion
This ride isn't free
I'll prove them wrong
I'll prove them all wrong
The more I sit here,
The more that I think Every mistake I make
From now on
I'll turn around
I'll make it, I'll make it right
And every truth I fake I
Might hurt someone
I'll make it, I'll make it alright Pins and needles
Are up and down my spine
I'll pull them out one by one
I don't need it all
Give it away
The more I breathe in,
The more is seaps through
It's a numbing feeling,
This is what I'll do Every mistake I make
From now on
I'll turn around
I'll make it, I'll make it right
And every truth I fake I
Might hurt someone
I'll make it, I'll make it alright Every mistake I make
From now on
I'll turn around
I'll make it, I'll make it right
And every truth I fake I
Might hurt someone
I'll make it, I'll make it alright I'll make it alright
