Over Now

Busted

Here we go, take a bow
Because we're over now
You were not there for me
When I needed you and honestly
I think I loved you more
If that's possible
I think I loved you more
It's over now and I can't save you
Some things are better left unsaid
And all the promises I made were so stupid
Maybe we'll be able to be friends
If that's possible
Two days gone and I'm all right
But you can't sleep at night
What is it that you don't like
And I'm happy now
I was playing with your head
When I closed the door
I was kidding when I said
I loved you more, yeah
It's over now and I can't save you
Some things are better left unsaid
And all the promises I made were so stupid
Maybe we'll be able to be friends
If that's possible
It's over now and I can't save you
Some things are better left unsaid
And all the promises I made were so stupid
Maybe we'll be able to be friends
If that's possible
If that's possible
If that's possible
If that's possible
If that's possible
It's over now
