

Frozen

Clinton Washington

It's been cold since the day you left
And I haven't slept yet
I'm so tired and restless
Hard to move, I'm frozenLike I'm stuck in slow motion
Or capsized in some far away ocean
I'm screaming for help, but my mouth won't open
Only you can hear these pleas tonightCHORUS
Standing still, afraid to rest
The icy chill across my chest
Anything changes, I might just miss
You coming back to this
So I'll stay frozen, until your kissYou knew what you were doing that night
Knew what to say to make me wanna fight
Stun me and run away was your plan
To leave me motionless, I'm frozenLike I'm stuck in slow motion
Or capsized in some far away ocean
I'm screaming for help, but my mouth won't open
Only you can hear these pleas tonightCHORUSWhen you laugh, I shed a tear
When you dance, I lose my will
When you love, I fall and when you move, I'm frozen
