In My Head

Stacy Barthe

I'm just as scared of the world
As an insect to human being
I think everybody's out to get me
Feels like I'm losing, losing itThe stories I make up in my mind
Make a little more sense than what's going on out there
What's going on - reality's such a tragedy
Or maybe, it's all in my headIt's all in my head, head, head
It's all in my head, head, headI've had to come to terms with myself
I know I'm not all there upstairs
But who is? I didn't need a therapist to sit me down
And tell what I've known for yearsThe stories I make up in my mind
Make a little more sense than what's going on out there
What's going on - reality's such a tragedy
Or maybe, it's all in my headIt's all in my head, head, head
It's all in my head, head, headYou know I can't escape
Your voice is in my head
And it's telling me to
Do it, do it, do it
God knows I can't escape
Your voice is in my head
It's telling me to
Do it, do it, do itIt's all in my head, head, head
It's all in my head, head, head
