Everlasting

Refused

This one will not change, turn down that fad again
Complacency, overcome, overdone
Everlasting, I have won, second chance
It's just begunThis one will not change, turn down that fad again
Complacency, overcome, overdone
Everlasting, I have won, second chance
It's just begunStuck down in convenience tradition chosen way
Who describes, who decides our idea of fun
I will not become what I despise
I found a reason, your truth's a lieDirected, attached, reason will overcome
The bounds of discomfort, we still are waiting
I will not become what I despise
I found a reason, your truth's a lieStruggle to overcome generations of second hand liars
Struggle to overcome the past mistakes
Struggle to overcome generations of second hand liars
Struggle to overcome the past, the past mistakesThis one will not change, turn down that fad again
Complacency, overcome, overdone
Everlasting, I have won, second chance
It's just begun
