When this Ends

Unjust

So, be my one, take or leave the call
You're my tie, so bring it all up to me
I'll be your vision, you'll be my lungs
Retreat eyes, so take the bitterness all in flamesGrim shading walls, nails broke into it
Broken mine, entrust impurity
Melee to shoot it, bent king now stung
Bleeding eyes, so take the pill to suck the painDo you fly?
Do you fly?And I feel like you've stolen
Dangerous intersection
ClosingAnd I feel like I'm broken
Dangerous intersection
ClosingIt's the only way I feel you now
I've been waiting so long
Roaming through the worlds on low
And I've been draining soreWalk through the change you made
And tally the losses, if you can only feel their cries
I can't believe you now, what do you see through?
I'm only the parade of this broken holeFollow me
Through the change
Turning shame
Just to let you knowWorld of fame
Plates of greens
Feats of pain, games, and the strugglesAnd I feel like you've stolen
Dangerous intersection
ClosingAnd I feel like I'm broken
Dangerous intersection
ClosingAnd I feel like you've stolen
Dangerous intersection
Closing
