World Without You

Hudson Taylor

You don't know what you've been missing out on
I've been waiting around for you to call
You don't know what you've been missing out on
You know i'm not a ghost, just come around
If i'd have listened to that fortune cooky wisdom
I'd have been a whole lot better off
But still i live with this constant light on
To show you the way back homeDo you know what it feels like to fall in your arms
Do you know what it feels like to love you,
I can taste every tear drop you've given me this far
Don't forget who it is that you areDid you take a class on who to, take a class on who to be friends with?
Cos now i know you're with them, and we are not just sunday love
You said i -
talk the talk but don't walk it, but all in all you just left me out
But don't you know that i'm nothing,
without you i'm just suffering for you nowDo you know what it feels like to fall in your arms
Do you know what it feels like to love you,
I can taste every tear drop you've given me this far
Don't forget who it is that you areA world without you, what would i do, what would i do without you
A world without you, what would i do, what would i do without youDo you know what it feels like to fall in your arms
Do you know what it feels like to love you,
I can taste every tear drop you've given me this far
Don't forget who it is that you are
