

# Snake

## Magnapop

Say you will  
Put your hand in my brain  
Call me up  
Wake me up by the second ring  
Like far away If you knew you'd know  
I'm always there  
Because I care  
You can't throw me out  
I won't go, you can't It keeps me here  
It keeps me here  
It feels like the same  
And it never changes Wearing thin  
Slip through cracks  
Trying to keep in  
And walk away  
Where the mood refines the room to play I come again  
This time won't be like the last time  
Stay the same  
Through the years the light  
Your look and looks have changed It keeps me here  
It keeps me here  
It feels like the same  
And it never changes It keeps me here  
It keeps me here  
It feels like the same  
And it never changes
