

When Worlds Collide

Zara Larsson

I wanna act a fool,
I wanna lose my cool
I wanna hit the roof
With someone like you.

Chorus:

'Cause when worlds collide
We put hopelessness aside
When worlds collide
We put hopelessness aside.

I wanna drop my guard
I wanna jump real hard
Wanna start some fizz
With someone new
Just like you.

Chorus:

'Cause when worlds collide
We put hopelessness aside
When worlds collide
We put hopelessness aside.
When worlds collide.

When worlds collide
We put hopelessness aside

I'm gonna build from scratch
Bring on the after math
Yeah, I'm back on track with a better view
Just like you.

[Chorus:]

When worlds collide
We put hopelessness aside

Yeah, that's what it feels like, alright
We put hopelessness aside tonight (tonight)

We put hopelessness aside.

I wanna act a fool,
I wanna lose my cool
I wanna hit the roof
With someone like you.

Yeah, that's what it feels like, alright
We put hopelessness aside tonight (tonight)

We put hopelessness aside.
When worlds collide

When worlds collide.
When worlds collide.
When worlds collide.
We put hopelessness aside
When worlds collide.
