High Lights

RJD2

Light it up, yeah
Put it in the air
High lights, high lights
Get up, get up
High lights, high lights
Get upBubble kush, cat piss, purple rain
Hash plant, Thai stick, white widow,
wreck the train
Indo, outdo' to the brain
Orange brown redhead, green, the potent strainsBongs, blunts, and zig-zags
Bubblers, bowls, blowin' out of big bags
Twist up, roll up, pack up, hit that
Scent so strong in the air, where you get that?Afghan, Pakistan, lamb's bread, skunk
Acapulco Goldy, hydro funk
Blueberry, chronic, chocolate chunk
Northern lights, Buddha bless, cannabis cup
And that's what's upGet up, get up
High lights, high lights
Get up, get up
High lights, high lights
Get upThe legislation wants regulation
They want to interfere with my cultivation
My personal usage for meditation
And medication to help the patientsCancer, asthma, emphysema
Back pains, migraines, grass is greener
Glaucoma, arthritis, epileptic seizures
Medicine man make me a believerCheech and Chong, reefer madness
Half Baked, how high, heal the masses
Light that, puff that, dump the ashes
Take 2, take 3, take 4 and pass itGet up, get up
High lights, high lights
Get up, get up
High lights, high lights
Get upSuper silver, Hawaiian haze
Sativa, Indica, Solomon's grave
Genesis, chapter one verse twelve ways
Marijuana, hashish, everybody blazeFuels and fibers, energy saved
When the natives met the travelers, guess, what they gave
All praise due to the seeds they raised

And the people all over the world that smoke J'sKings and queens, musicians, actors
Everyday, working class, stoners, slackers
Low key blazers and green bowl packers
If Mary Jane is in the house then I'm gon' mack herGet up, get up
High lights, high lights
This is dedicated to everybody in the world that smoke weed
Legalize itGet up, get up
High lights, high lights
Smoke your way eat it, use it for fibers, Aceyalone
Get up, get up
