

# Puzzle

## The Notwist

One piece missing makes you small

Could be a day or more -

Within a second you're alone.

You want things that tell you

Exactly what you really are

To make you feel complete.

All I have is yours

- it's standing here in front of me One piece missing makes you small

Could be a day or more -

Without a second you're alone

I want things that tell me

Exactly what you really are

To make you feel complete.

All I have is yours
