

# Suffering

## Rebelution

Let's sit back and relax and get comfortable  
Now close your eyes, now make it right

Don't point your finger at me  
Don't you know it's you why you're suffering?  
You're why you're suffering

I've got my mind set at ease  
Don't you know it's you why you're suffering?  
You're why you're suffering

I've got my reasons to live  
Don't you know it's you why you're suffering?  
You're why you're suffering

I've got my mind set at ease  
Don't you know it's you why you're suffering?  
You're why you're suffering

You are your suffering  
You're why you're suffering
