

King of Silence

Sons Of Robots

I can take your pain away if you tear down your fortress of memory

I can take your pain away, you don't always need to be strong

I can take your pain away, I know we have different shoes

I can take your pain away, barefoot we will tear the truthYou are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on meI can take your pain away if you find a remedy in me

I can take your pain away, you can take as much as you want from me

I can take your pain away, we have a distance between us

I can take your pain away, every time we can find the clueYou are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on meYou are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on meYou are the king of silence

You don't need one word to talk to me

All I know is we have sympathy

Close your eyes and lean your head on me
