V.A.L.I.S

Bloc Party

When in motion
World is frozen
Talks in circles and Greek
Hes into epiphany
Hes into philosophy
Hes into methyl amphetamines
Hes into science
But hes lost his way
Hes not the real me, but I can hear
I can hear, I can hear him
From my futureShow, show, show show me
You gotta show me the way
Show, show, show show me
You gotta show me the way
Show, show, show show me
You gotta show me the way
Show, show, show show me
You gotta show me the wayPast and present
Are superimposed
He has seen this before
Hes into conspiracy
Hes into theophany
Hes into phenomenology
Hes into deeds
He dont mix his words
Hes not the real me, but I can hear
I can hear, I can hear him
From my futureShow, show, show show me
You gotta show me the way
Show, show, show show me
You gotta show me the way
Show, show, show show me
You gotta show me the way
Show, show, show show me
Show, show, show show me
