

# Margarita

## Los Tiburones

On a hilltop in Tahiti as we gazed across the bay  
At the island of Moorea, standing in the day  
And my lovely Margarita serving cool Hinano beer  
I'll be a fool in paradise if I'm a fool out here

[Chorus]

Yo lana, can you stand the heat  
Yo lana, bouncing in bare feet  
Yo lana, when you laugh at me  
Yo lana, said I...I'm in ecstasy

Her name is Margarita and the salt upon your lips  
Tell me lemon and tequila is the flavor of your kiss  
All the magic and the beauty and the humor of this isle  
Is captured like a goldfish in the sparkle of your smile

[Repeat Chorus]

The sunshine warms your mountain and it paints you golden brown  
These waters lap around you where I only hope to drown  
The coconut plantation, the sea and sky are blue  
The south pacific islands they are all caressing you

[Repeat Chorus]

The crimson dress you're wearing, with nothing underneath  
The flower there behind your ear, the grass beneath your feet  
Margarita, Margarita please dance with me tonight  
We will dance together where the stars are shining bright

[Repeat Chorus]

Margarita, Margarita I come from far away  
Let's go take a dive down in Makawai Bay  
Margarita, Margarita, we pokin Hinalea  
We go in the dark and we don't need a spear

[Repeat Chorus]
