

Freedom Summer

Har Mar Superstar

Never mind how Im drinkin
Im sippin on a way of life
I hit that thing up
Pass it to the right hand side Pulling it so classic, Im bout to come all night
Now you gotta release it to the butterfly
And let those colors take you to the fire's light
An' forget all your troubles and let love multiply Try to kill the vibe
Well, I can shake it off
Ill be gettin by
'Cause the beat don't stop Let the freedom fly
To the stars above
I'll be gettin high
On the summer love I smell something good
Comin off someones grill
Cause everyone should know
Thats how we keep it real Gather up your friends
And make your special tea for them
Let them return the favor
When the time comes Try to kill the vibe
Well, I can shake it off
Ill be gettin by
'Cause the beat dont stop Let the freedom fly
To the stars above
I'll be gettin high
On the summer love And if you feel like times are gettin rough
Just take my hand and fill your heart on us Try to kill the vibe
But I can shake it off
Ill be gettin by
'Cause the beat dont stop Let the freedom fly
To the stars above
I'll be gettin high
On the summer love
