Seasons

The Veer Union

Advisory - the following lyrics contain explicit language:

Back and forth you wonder
Through your mind
Winters passing over
But it wont find youTake what you can
Change the seasonsIsolate yourself and
You will find
There's no rhyme or reason
That it wont find youTake what you can
Change the seasons
The changing of the seasons is you now
The changing of the seasons is you now, is you nowBack and forth you wonder
Through your mind
Winters passing over
But I don't mindBranches that you're under
Will subside
There's no time to ponder
Cause it wont find youTake what you can
Change the seasons
The changing of the seasons is you now
The changing of the seasons is you now, is you nowAnd I will find you
Although I wonder
If I will climb through
This work among themI'm turning the page for something new
I'm finding my way through life it knew?The changing of the seasons is you now
The changing of the seasons is you now, is you now
Is you nowI'm turning the page for something new
I'm finding my way through life it knew?
