Backflip

The Front Bottoms

don't bring me your tired act
after you've been running round
the time you spend with me
you shouldn't be coming down

don't give me no attitude
saying what you will and will not do
baby we need compromise
if we're gonna make it through

push yourself a little more boy
for me you gotta try a little harder
all i do is for the love of you
show me you're always gonna be there
no matter what you're always gonna be there
here's what you've gotta do

chorus:
i wanna see ya backflip
cartwheel
don't be cutting corners
on me
gotta give me all that you've got
i need to see it to believe it

i wanna see ya backflip
for real
show me that you really do feel
everything you say that you do
i need to see it to believe it

don't bring me your baggage cause
i got plenty of my own
bring me all your good stuff
baby leave the rest at home

you've got your own philosophy
wanna hear al that you believe
but if ain't about being faithful

then it ain't impressing me

push yourself a little more boy
for me you gotta try a little harder
all i do is for the love of you
show me you're always gonna be there
no matter what you're always gonna be there
here's what you've gotta do

chorus
