

# Seasons Change

Alice Gold

When the bluebells come a calling  
Oh yeah I'll be there waiting  
Waiting for you  
You make me feel like summer sunshine  
Falling through the leaves  
On days when the water is so blue Some things stay in range  
Only when the seasons change When I said I love your way  
I mean every word I say  
In a world where the lovers go away  
I'm hoping that forever we can stay So when the sleigh bells come a calling  
Oh yeah and the snowflakes start falling  
I'll be thinking of you  
But it would change if we're ever  
Touching oh Under the Mistletoe  
I'll go say no no no  
No Not on this winter day cos I know Some things stay in range  
Only when the seasons change When I said I love your way  
I mean every word I say  
In a world where the lovers go away  
I'm hoping that forever we can stay Give me the storm and I'll stand in the rain  
Give me the heat and I'll burn out insane  
Send me to space and I'll hang out there  
Waiting for you in my easy chair  
Oh ohhhh no  
Ohh ohhhhhhhhhhhhhhhhh  
I love your way When I said I love your way  
I mean every word I say  
In a world where the lovers go away  
I'm hoping that forever on the other side of never  
I'm hoping that forever we can stay
