

# So Help Me God

## Dc Talk

I got something for you, man  
Oh yeah, go for a ride  
Bombarded by philosophies that satisfy the surface  
I flee to something deeper at the risk of seeking purpose  
How can I hang in this environmental state of being  
When everything I'm striving for is nothing that I'm seeing  
Won't You take my heart, won't You take my soul?  
Won't You come and make me whole again?  
You, You've got what I need and You never retreat  
Unto You I will concede  
So help me God to put my faith in You  
So help me God before I come unglued  
Call it my addiction, I can't get enough of You  
So help me God to put my faith in You  
Infected by the skin, I'm in this starving with desire  
And Jesus ain't the latest thing to come across the wire  
I throw myself at mercy for I am the chief of sinners  
But daily taking up my cross has brought its share of splinters  
You're there when I call and You're there when I fall  
Even though I don't deserve it all  
You, You light my way through the night and the day  
And from You I will not stray  
So help me God to put my faith in You  
So help me God before I come unglued  
Call it my addiction, I can't get enough of You  
So help me God to put my faith in You, yeah  
Won't You take my heart, won't You take my soul?  
Won't You come and make me whole again?  
You, You've got what I need and You never retreat  
Unto You I will concede  
So help me God to put my faith in You  
So help me God before I come unglued  
Call it my addiction, I can't get enough of You  
So help me God to put my faith in You  
So help me God, this is my soul plea  
I'm desperately devoted  
I can't get enough of You  
So help me God  
'Cause You are the one I love

'Cause You are the one I need  
You are the one I'm seeking  
'Cause You are the one for me  
{I just walked into a meetin' 3  
And everybody's starin' at me  
I gotta go}
