

Noro

Brand New

Advisory - the following lyrics contain explicit language:

Little light lead us through the night
And if we die, burn down the forest
Chariots carry us
Distances we don't care to walk I'm on my way to hell
I'm on my way to hell Why doesn't anyone I know sleep?
Are they all just scared of their dreams?
When they lay their heads down at night
What are they haunted by? Why won't anyone just close their eyes?
Could it hurt them to rest for a while?
Do they need their friends to be a lover
Or a lover to be a friend? Because I'm on my way to hell
Well I try, God knows that I try
I'm on my way to hell
One time, two time, three time again Sitting duck, running out of luck
And our car's stuck on the train crossing How am I ever gonna know peace?
How will I ever see the light through the trees?
I wanna burn down everything we've begun
I wanna kill and eat my young Because I'm on my way to hell
Well I try, God knows that I try
I'm on my way to hell
One time, two time, three time again I'm on my way to hell
Well, I try, God knows that I try
I'm on my way to hell
One time, two time, three time again I'm on my way to hell
I'm on my way to hell
I'm on my way to hell
I'm on my way to hell Oft-times cloudy is the way
But today then beckons me
Oft my wandering heart is, Lord
On some by-path far from Thee Father, when my footsteps stray
Guide me back into Thy way
Oh, let it be Oh, let me be

On life's highway, God with thee
