

# Dignity

## Bullet for My Valentine

So society just can't let us be  
Please don't be ashamed, we are not to blame  
The future's ours to take, we will make mistakes  
Scream this loud and proud: "we will not back down!" So let's go, we'll release the pressure  
Anarchy can only make it better  
We can't, we won't surrender  
We can't, we won't surrender We're not scared 'cause we like the danger  
Reality will only make us stronger  
We can't, we won't surrender  
We can't, we won't surrender Don't tell me where I will lay in your cemetery  
Don't try to silence and bury me  
Don't push me 'cause I won't go quietly  
I'd rather die with dignity Let them put us down, hope we're not around  
They pray, we go away but we're here to stay  
Time is on our side, our two worlds collide  
These four words might help: "just go fuck yourself!" So let's go, we'll release the pressure  
Anarchy can only make it better  
We can't, we won't surrender  
We can't, we won't surrender We're not scared 'cause we like the danger  
Reality will only make us stronger  
We can't, we won't surrender  
We can't, we won't surrender Don't tell me where I will lay in your cemetery  
Don't try to silence and bury me  
Don't push me 'cause I won't go quietly  
I'd rather die with dignity (DIGNITY!!!) Don't tell me where I will lay in your cemetery  
Don't try to silence and bury me  
Don't push me 'cause I won't go quietly  
I'd rather die with dignity Don't tell me where I will lay in your cemetery  
Don't try to silence and bury me  
Don't push me 'cause I won't go quietly  
I let it die with dignity
