

# Displaced (bonus)

## Katatonia

Do you have water in your car?  
I might get thirsty along the way  
Are you sure it isn't very far?  
Are we getting there today  
And is it hard and complicated? You displace me Drive me there, let me sleep  
We are coming to and here see  
Drive me there, I'm meant to be deceived  
We are coming to an end here see Reaching for a sentence in my mouth  
Well, hidden under my tongue  
I know what things are all about  
I made it so easy for you when you came  
For your safety
