

I Don't Wanna

Jagged Edge

I don't wanna, I don't wanna
I don't wanna, I don't wanna
I don't wanna, I don't wanna Baby I know it's love
'Cause everything fits just fine
You don't give it up
'Cause you got hot on the very first night And I could be the one who
Can change your life and do it right away
Baby let me prove it to you Anything that you might need
Realize, realize that I'm right here
Baby tell me that you won't leave
Realize, realize that I'm right here I don't wanna live without you
And I don't wanna love nobody else
I don't wanna spend another day
So baby what can I say? I don't wanna kiss any other lips
I don't wanna move, not a little bit
Unless it's with you my love
I don't wanna, I don't wanna Said I'm sitting here
And I think of all the times we've had
All those memories
No I wouldn't trade 'em for nothing I have Only hope that you won't know no
All the happiness and joy you bring to me
And baby I hope that you know
That you are my everything Anything that you might need
Realize, realize that I'm right here
Baby tell me that you won't leave
Realize, realize that I'm right here I don't wanna live without you
And I don't wanna love nobody else
I don't wanna spend another day
So baby what can I say? I don't wanna kiss any other lips
I don't wanna move not a little bit
Unless it's with you my love
I don't wanna, I don't wanna You're the only one I'm giving my love
Must've been sent from someone above
You're the only one I'm giving my love
Must've been sent from someone above You're the only one I'm giving my love
Must've been sent from someone above
You're the only one I'm giving my love
Must've been sent from Heaven above I don't wanna live without you
And I don't wanna love nobody else

I don't wanna spend another day
So baby what can I say? I don't wanna kiss any other lips
I don't wanna move not a little bit
Unless it's with you my love
I don't wanna, I don't wanna I don't wanna live without you
And I don't wanna love nobody else
I don't wanna spend another day
So, baby what can I say? I don't wanna kiss any other lips
I don't wanna move not a little bit
Unless it's with you my love
I don't wanna, I don't wanna I don't wanna live without you
And I don't wanna love nobody else
I don't wanna spend another day
So baby what can I say? I don't wanna kiss any other lips
I don't wanna move not a little bit
Unless it's with you my love
I don't wanna, I don't wanna
